What is Titleist Performance Golf Evaluation (TPI)?

Titleist Performance Institute is the world's leading educational organization dedicated to the study of how the human body functions in relation to the golf swing.

TPI's medical certification focuses on golf-specific injury assessment and rehabilitation techniques to get players back in the game.

Who could benefit from TPI?

Current or future golfers who struggle with golf related pain or limitations in regards to their golf swing or game.

Why do we use TPI?

There are injuries associated with the golf swing that few understand better than TPI. Medical Certification looks at how these injuries develop, how to access and treat injuries, and how specific physical limitations can be addressed to improve performance.
